Summary

Third-year BSc Mathematics student at the University of Edinburgh with strong academic performance, effective communication skills, and a solid foundation in problem-solving. Much enjoy tackling real-world challenges with my theoretical knowledge. Motivated and eager to learn and grow.

Education

University of California, Berkeley **Berkeley, CA**
Exchange Year in Mathematics *2025–2026*
- Tracking at average 3.925 GPA for coursework includes UG Algebraic Geometry, UG Algebraic topology, Real Analysis, Complex Analysis, ODE, Abstract Linear Algebra, Graduate level Abstract Algebra, and reading course about Representation theory Supervised by Professor Rui Wang

the University of Edinburgh **Edinburgh**
BSc Mathematics *2023–Present*
- Tracking at average 83%(A2) grading for course so far including A for Introduction to Computer System and Introduction to Algorithm and Data Structure

Cambridge International AS and ALevels **Nanjing**
*A*A*A*A** *2021-2023*
Further Mathematics, Mathematics, Chemistry, Physics

Experience

Vacation Scholarship **Edinburgh**
Undergraduate Researcher supervised by Professor Ivan Cheltsov *Summer 2025*
- Research about classifying monomial subgroups of $\mathrm{PGL}_4(\mathbb{C})$ and Their Cremona Extensions

Math Society **Edinburgh**
Student Representitive *2024-Present*
- Currently serving as Second Year Representative for School of Mathematics
- Member of MathSoc football team

Math Outreach Team **Edinburgh**
Event Coordinator and Tutor *2023–Present*
- Math Circles: Tutoring, making puzzles and providing guidance for solving puzzles for young kids
- Edinburgh Science Festival: Proposed the idea of working on knot theory and assisted in presenting it
- As Guide for the exhibition of Geometry Art and Mind
- Other Activities like MasterClasses

Current interests and Skills

Research Interests: Algebraic Geometry, Representation Theory

Programming: Python, MATLAB, LaTeX, Lean, GAP and Magma(Computer algebraic system)

Mathematics: Linear Algebra, Group Theory, Fintie Group Representation Theory, Algebraic Geometry

Languages: English (fluent), Chinese (native)
